

Cut Costs, Speed Service, and Increase Customer Satisfaction with Customer Facing Technology

The RM Kiosk self-ordering technology for iPad is a customer facing restaurant POS system from the leader in mobile POS solutions for the foodservice industry. RM Kiosk offers restaurants, bars, and nightclubs a fully integrated solution for on-site customer self-service.

Allow guests to view your menu, select items, and place their order themselves with this sleek iPad POS app. Whether iPads are used as kiosk stations in QSRs, bars, or nightclubs or placed on tables in full service restaurants, RM Kiosk helps boost your bottom-line!

Providing Solutions to Real Business Problems

Restaurant Manager focuses on critical business issues facing today's restaurant owner. With Restaurant Manager you get robust functionality, fully integrated optional modules and the expertise needed to solve real business issues and meet your unique goals.

Business Need/Goal	How RM Kiosk Helps
Speed service	Guests no longer need to wait for an available cashier, waiter, or bartender to place their order so orders are sent sooner, lines and wait times are reduced, and tables turn faster
Reduce payroll costs	This self-serve option means less staff are needed. Runners can deliver food to tables or a single cashier can handle traffic during busy periods.
Improve customer satisfaction	Improve the guest experience to increase return visits and referral business with a sleek, attractive and easy to use iPad self-ordering system.
Increase average checks	Enticing pictures and detailed menu descriptions encourage customers to order more and continued access to ordering tools ensures no additional sales opportunities are missed.

A fully integrated solution that's easy to use and manage

Use the familiar, user-friendly interface of Restaurant Manager POS to manage your customer self-ordering tools. Seamlessly alert the kitchen, cashiers, bartenders, runners, or servers, when a customer places an order, ensuring open checks are managed and guests are served promptly. Streamline operations with a single source to manage your menu, price levels, and promotions so your POS, self-ordering stations, and back office are always in sync.

Attractive and Easy to Use

Allow customer to browse your menu and place their order on the sleek RM Kiosk iPad app.
