

Customer Display:

Restaurant Manager's Customer Display interface helps quick service establishments, bars and nightclubs reduce costs and increase revenue.

Reduce Costs

Allowing customers to view and verify their order in real time as items are entered into the POS helps improve customer satisfaction and reduce costs thanks to fewer errors and comps.

Increase Revenue

Restaurant Manager's Customer Display interface helps restaurateurs increase revenue by allowing for multi-media in store marketing. Share marketing videos, photos, and text to up sell, promote specials, prompt return visits, and more.
