Restaurant POS Solutions for Over 20 Years

Restaurant Manager offers a total POS solution for the entire food service industry and can be easily tailored for use in any sort of food service establishment, including fine/casual dining, bars/nightclubs, pizza operations and quick service operations.

View Restaurant Manager Screenshots

New items can be quickly added, messages that need your staff's attention are clearly highlighted in automatic alerts and server training is a snap. Whether servers are sending special instructions to the kitchen, selling gift certificates or splitting checks, Restaurant Manager's clear and dynamic graphics ensure they do it right—quickly and efficiently.

You can print status reports, track the number of daily specials that are available and integrate your credit card processing all from the same terminal. The system is easy to customize and can be easily integrated with third-party vendors such as gift cards and inventory control.

Table Service POS Solutions

Give Your Customers a Reason to Return
Providing a memorable meal and service experience helps maintain important repeat business, as well as generate word-of-mouth accolades. Restaurant Manager Table Service is a comprehensive software package that gives you the tools to ensure the highest quality customer service, while reducing costs and increasing profits. Ideal for fine dining, casual dining, bar service and take-out Restaurant Manager provides a POS solution to meet your needs.

Bar and Club POS Solutions

Keep Customers Happy While Monitoring Your Profits
Keeping the crowd happy and the drinks flowing drives your bottom line. To improve billing accuracy and keep margins high Restaurant Manager can play a key role with features like quick tab pre-authorizations, easy tab transfers and one touch "next round" ordering. Restaurant Manager can deliver the speed customers expect, the features bartenders want and the security you need.

Pizza and Delivery POS Solutions

Offer Reliable, Fast Service with Food that is Prepared Right – the First Time
Quickly serving customers, managing special orders, sending accurate information to the food prep staff and getting the order out the door requires the right tools. Restaurant Manager is ideal for pizza operations with a intuitive pizza matrix and robust couponing capabilities. In addition, our reporting package provides real-time sales statistics, delivery sales and a host of other sales related data, allowing you to spend more time running your business.

Quick Service (QSR) POS Solutions

Allow Employees to Focus on the Customer, Not the Computer
Getting the order right while minimizing errors, up-selling the customer and easily processing coupons put the "quick" in quick service. Customize the screens the way you need them to look in order to help your servers fill customer orders quickly and correctly. In addition delivery and take-out capabilities give you the most complete solution available.
